

How much can your OSLA Membership save you?

**With ProLink Professional Liability Insurance through OSLA
you've already doubled your membership money in Savings!**

- OSLA members have exclusive access to insurance that in most situations will save you at least \$1,000 per year in premium costs. This protection will properly insure your professional services and satisfy your regulatory requirements with the College of Audiologists and Speech Language Pathologists of Ontario (CASLPO).
- The insurance protection exclusive to OSLA members is customized to insure speech-language pathology and audiology services and so you know you will be able to rely on this coverage should you ever need to make a claim. "Off the shelf" policies in the general insurance marketplace may exclude coverage for many of the risks that you are exposed to.
- A range of cost-effective options are available to protect you and your unique situation including solutions for independent practitioners, employees and incorporated businesses.
- If you are an employee, you have access to a specially-priced coverage solution that will supplement your employer's insurance, provide you with legal defense coverage to defend yourself if a complaint is unfairly made against you to CASLPO (many employer policies do not provide this protection), and protection for services that you may provide on a volunteer basis outside of your employment.

AND...

OSLA Benefits to save you money throughout the year!

OSLA Benefit	Regular Price	Member Price	Savings
